LAMZAR TECHNICAL SERVICES

COMPANY PROFILE / 2026

Technical delivery. Workforce ready.

Integrated technical services and manpower coordination across the UAE.

LAMZAR TECHNICAL SERVICES

A partner for technical delivery

LAMZAR supports contractors, property teams and commercial operators with responsive technical works and coordinated workforce deployment.

Practical scope. Clear coordination. Reliable follow-through.

From maintenance call-outs to trade deployment, our focus is straightforward execution: understand the requirement, mobilise the right capability and maintain accountable site communication.

Where we add value

Support configured around the operating context—not a one-size-fits-all package.

01

CONSTRUCTION

Trade support and site manpower

02

PROPERTY

Repairs, upgrades and upkeep

03

FACILITIES

Planned and responsive support

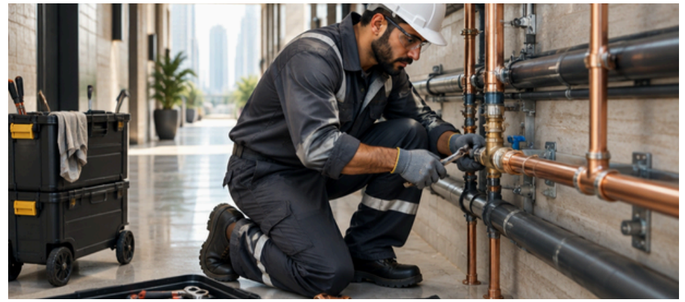

04

COMMERCIAL + HOSPITALITY

Fit-out, care and continuity

Our capabilities

Two connected service lines, coordinated through one delivery mindset.

TECHNICAL SERVICES

HVAC • Electrical • Plumbing
Maintenance • Fit-out • Cleaning

WORKFORCE SUPPORT

Trade sourcing • Mobilisation
Supervision • Attendance • Follow-up

ONE COORDINATED DELIVERY PARTNER

HVAC & air conditioning

Installation, preventive maintenance, fault repair and performance-focused care.

Installation & replacement

Preventive maintenance

Duct and coil cleaning

Electrical works

Safe, practical electrical support for properties, workplaces and fit-out environments.

- Fault diagnostics
- Wiring and containment
- DB works and circuit support
- Lighting, sockets and fit-out

Plumbing & water systems

Responsive installation and repair work, with careful attention to access and finish.

Plumbing installations

Pipeline repair and modification

Leak tracing and rectification

Tank and water-system support

Building maintenance

A practical maintenance partner for everyday defects, planned works and property readiness.

Handyman support

Minor repairs and adjustments

Planned property upkeep

Responsive defect resolution

Fit-out & renovation

Coordinated finishing works for offices, villas and apartments.

Painting and wallpaper

Carpentry and adjustments

Office improvement works

Villa and apartment refresh

Cleaning & property care

Professional care supporting presentation, hygiene and operational readiness.

- Professional cleaning
- Deep-clean support
- Water tank cleaning
- Pool care and upkeep

Manpower supply

Site-ready trade support aligned to scope, duration and supervision needs.

The right trade.
The right site.
Clear accountability.

For project peaks, package support, short-term requirements and ongoing assignments.

Trades we supply

Core site roles deployed against an agreed requirement.

01
Helpers

02
Steel fixers

03
Carpenters

04
Masons

05
Electricians

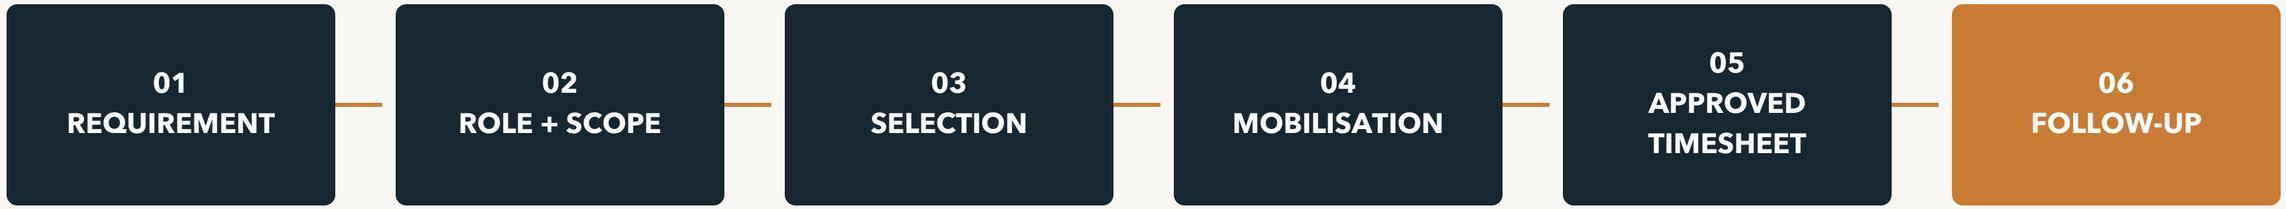

06
Plumbers

07
AC technicians

08
Painters

How deployment works

A six-step path from requirement to accountable follow-up.

Scope is confirmed before mobilisation; attendance and approvals stay visible during delivery.

Site coordination & accountability

A clear interface between the site requirement and the deployed workforce.

01

SITE SUPERVISOR

Daily direction and attendance

02

LAMZAR COORDINATION

Communication and follow-up

03

AGREED REPLACEMENT

Response when a change is required

Ongoing site support

A portfolio view of current workforce capability and assignment context.

01
